

Join us for an inside look at what's new in the HYPACK Q2 Software Release—designed to help you work smarter, faster, and with greater confidence!

In this free webinar, **Amanda Whaling** and **Caryn Zacharias** will walk you through the latest features and enhancements, showing how they can streamline your workflow, improve data quality, and elevate your overall survey performance. Whether you're managing complex projects or looking to optimize everyday tasks, this session will give you practical insights you can apply immediately. You'll see how the newest tools in HYPACK are built to save time, reduce manual effort, and deliver more accurate, reliable results. Don't miss this opportunity to get ahead with the newest HYPACK capabilities and take your survey workflows to the next level.

Why attend?

- Stay up to date with the latest innovations in HYPACK
- Learn how to increase efficiency and reduce processing time
- See real examples of how new features improve workflows
- Get tips from experts on making the most of your software

Webinar Highlights Include:

- Updated Geodesy tools for improved accuracy
- Enhanced Reporting for clearer, more actionable outputs
- A redesigned DQM experience for better data quality management
- Improved Sound Velocity tools for more precise results
- Digital Signatures to support data integrity and validation
- One-click automatic updates for a faster, easier upgrade process
