

## Spare parts Multipack now available to order

The Lowara spare parts multipack kit: everything you need on the shelf, in one smart cost-saving package for e-SV and e-HM pump series

### Genuine Lowara parts

Our commitment to long-term reliability means we supply spares for Lowara pumps and products years after they're out of production. Lowara components are carefully developed and selected to maximize the performance of your equipment — so use only genuine Lowara spare parts to protect your pump and the entire system.

### Find the right part with SPARK

Our Lowara spare part finder is easy to use. Enter the product code shown on the product nameplate and the correct spare part list appears instantly. You can also search by whole or partial product description or product type.

### Identify your multipack at a glance:

KIT and Bulk packs carry a description starting with "KIT" or "BULK", or a product code beginning with "KL".

#### Right on time

Have the spares ready when you need them. No waiting, no downtime: just keep your pumps running.

#### Lower total cost

Save on the parts and on the shipment. One multipack, one delivery, less spend end to end.

#### Space efficient

One compact kit instead of multiple separate orders. Neat on the shelf, easy to manage.
